

CGC EAGLE

Name: **CGC Eagle**
Length: 295 feet
Year Built: 1936
Type of Vessel: Barque
Home Port: New London, Conn.
Captain: Capt. Chris Sinnett
Website: www.cga.edu/display.aspx?id=2558

Biography: The Eagle serves as a seagoing classroom for future Coast Guard officers. It is the only active-duty commissioned sailing vessel in the U.S. military.

Point of Interest: The Eagle has 22,245 square feet of sail and more than 20 miles of rigging. During major ship maneuvers, cadets must coordinate the movements of more than 200 lines. Cadets are also required to learn the name and function of each of these lines.
